

Woot Tutor is an online math tutoring program serving children in grades 5-12 throughout the US. Our unique solutions combines 1:1 tutoring session with working math teachers, small group coaching sessions to develop executive function, and access to a real-time homework hotline make it possible for children to gain the confidence and academic skills they need to pursue their dreams.

“We are tremendously grateful for the team at Woot Tutor. They were eager to develop solutions to meet our needs for the online tutoring program we ran this summer with students in Chicago & New York City Public Schools. **We were blown away by the Woot Tutor tools and look forward to continuing to collaborate with Woot Tutor on making online tutoring engaging and effective.**”

–**Saga Education**

a non-profit that serves disadvantaged youth

“Research shows that a highly effective way to improve numeracy is through 1-to-1 personalized interaction between a teacher and a student. Woot Tutor will deploy breakthrough “high tech” and “high touch” elements by placing the most modern digital tools within the hands of capable educators to promote academic and life success.”

–**Dr. Michael Levine**

Chief Knowledge Officer  
at Sesame Workshop

“From research, we know that productive tutoring involves timely questions based on students’ prior knowledge and experiences with mathematics. I am impressed with Woot Math’s innovative tools that give teachers insight into student thinking. and I am so pleased to see these tools helping make 1:1 tutoring more engaging and effective.”

–**Dr. David Webb**

Assoc. Professor of Math Education,  
University of CO, Boulder

The tutors at Woot Tutor are top-notch educators that are wonderful at building a student’s confidence and stretching their thinking! My daughter loves that she can do it over the computer and from home!
